OMB Control Number: 0648-0399.

Form Number(s): NA.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 301.

Average Hours Per Response: Diversion screens, aiding/rescue of salmon and artificial propagation, 5 hours each; road maintenance agreements and tribal or joint state/tribal plans, 20 hours each; urban development ordinance packages, 30 hours; fishery harvest and hatchery plans, 10 hours; research permit applications and annual reports, 2 hours each.

Section 4(d) of the Endangered Species Act of 1973 (ESA; 16 U.S.C. 1531 et. seq.) requires the National Marine Fisheries Service (NMFS) to adopt such regulations as it “deems necessary and

advisable to provide for the conservation of” threatened species. Those regulations may include any or all of the prohibitions provided in section 9(a)(1) of the ESA, which specifically prohibits “take” of any endangered species (“take” includes actions that harass, harm, pursue, kill, or capture). The first salmonid species listed by NMFS as threatened were protected by virtually blanket application of the section 9 take prohibitions. There are now 22 separate Distinct Population Segments (DPS) of west coast salmonids listed as threatened, covering a large percentage of the land base in California, Oregon, Washington and Idaho. NMFS is obligated to enact necessary and advisable protective regulations. NMFS makes section 9 prohibitions generally applicable to many of those threatened DPS, but also seeks to respond to requests from states and others to both provide more guidance on how to protect threatened salmonids and avoid take, and to limit the application of take prohibitions wherever warranted (see 70 FR 37160, June 28, 2005, 71 FR 834, January 5, 2006, and 73 FR 55451, September 25, 2008). The regulations describe programs or circumstances that contribute to the conservation of, or are being conducted in a way that limits impacts on, listed salmonids. Because we have determined that such programs/circumstances adequately protect listed salmonids, the regulations do not apply the "take" prohibitions to them. Some of these limits on the take prohibitions entail voluntary submission of a plan to NMFS and/or annual or occasional reports by entities wishing to take advantage of these limits, or continue within them.

Affected Public: Business or other for-profit organizations, state, local or tribal government.

Frequency: Annually and on occasion.

Respondent's Obligation: Mandatory.
